Dear Andy:

Now that the dust has settled at the Dakin House, I would like to take a minute to express my gratitude to you and your company for successfully completing the window replacement project, not to mention the other projects performed simultaneously. Your positive attitude and supervision helped to bring this project in on time and within budget. I would like especially to say that a great deal of the projects success was due to Mr. Mike Weimer as he displayed excellent control and direction over the multiple crews.

Thank you again for a job well done. I look forward to working with you again in the future.

Sincerely,
